Market Review

- Global fixed income markets came under renewed pressure in March, with the global bond index falling -3.07%. Sovereign yields moved higher amid persistent inflation risks and hawkish central bank rhetoric amidst the geopolitical developments in the Middle East. The U.S. 10-year Treasury yield rose from 3.94% at the end of February to 4.32% by March 31, reflecting reduced expectations for near-term easing and continued resilience in growth data.
